

Capability Statement · Adova Digital LLC

Veteran-owned AI systems firm. We design, build, and operate production AI automation for agencies, purchase-card buyers, and prime contractors. The engineer who scopes your requirement is the one who ships it.

CAPABILITY
STATEMENT
2026-Q3

CORE COMPETENCIES

B.1 · NAICS 541511 (PRIMARY)

AI process automation and workflow systems
Intake, routing, document processing, and reporting automation integrated with existing systems. Delivered with runbooks.

B.2 · NAICS 541511

AI intake and missed-communication answering
Call, text, and form answering that captures, qualifies, and follows up around the clock. In daily production.

B.3 · NAICS 541512

Data pipelines, reporting, and decision dashboards
Operational data into live dashboards and scheduled reports; architecture and security posture documented.

B.4 · NAICS 541611 / 541618

AI readiness assessment and workforce enablement
Priced automation roadmaps before anything is built; staff training on delivered systems.

RELEVANT EXPERIENCE

Missed-call answering and follow-up system
Automated answering, qualification, and follow-up integrated with CRM and calendar, built for home-services contracting operations. Sole developer and operator.
IN PRODUCTION · DEMONSTRATION AVAILABLE

Lead capture, CRM, and payment automation stack
End-to-end pipeline from web capture through CRM automation to invoicing and payment collection. Sole developer.
FIRM-OPERATED · IN PRODUCTION

AI content and publishing pipeline
Automated generation, review, scheduling, and publishing on a daily cadence with human oversight checkpoints.
FIRM-OPERATED · IN PRODUCTION · OPERATED DAILY

New entrant to federal prime contracting; demonstrations available on request. Where past performance is evaluated, an offeror without a relevant record receives a neutral rating (FAR 15.305(a)(2)(iv)).

FIXED-PRICE LINE ITEMS

CLIN	ITEM	PRICE
0001	AI Opportunity Assessment: workflow review, automation map, priced roadmap. 2-week PoP.	\$1,500 FFP
0002	AI System Build: scoped design, build, deployment, documentation, handoff.	\$7,500-\$25,000 FFP
0003	AI operations and support retainer, scoped to requirement.	from \$500/mo

CLIN 0001 BELOW THE MICRO-PURCHASE THRESHOLD, INCLUDING THE \$2,500 SCLS-SERVICES LEVEL (FAR 2.101) · GOV PURCHASE CARD ACCEPTED · SIGNED QUOTE SAME DAY

DIFFERENTIATORS

Founder is the delivery engineer. No layers between buyer and engineer; the signer scopes, builds, and operates the work.

Trade and field background. Four years commercial electrical; serving GA Army National Guard engineer NCO (12N).

Production systems operating today. Systems run daily; logs and demonstrations available in a briefing.

Founder-led with surge capacity. Contractor network for surge; micro-purchase and SAP speed.

ENTITY DATA

LEGAL NAME	Adova Digital LLC
UEI	HYSTBYVWZ566
CAGE	176E4
SAM.GOV	ACTIVE · expires 2027-07-28
STRUCTURE	Georgia LLC, formed 2025
PRIMARY NAICS	541511
SECONDARY NAICS	541512 · 541611 · 541618
SIZE	Small business
SOCIOECONOMIC	SDVOSB, application under SBA review (VetCert) Veteran-owned
LOCATION	Mableton, Georgia (Atlanta metro)
PURCHASE CARD	Accepted

HOW TO ENGAGE

- Micro-purchase and simplified-acquisition direct awards
- Subcontracting and teaming with primes
- Small-business set-asides
- Sources Sought / RFI responses within 48 hours
